

FEMALE UNIVERSITY SEMINAR AT PRINCE SULTAN UNIVERSITY

SUNDAY, FEBRUARY 17, 2014

Saudi Aramco FEMALE UNIVERSITY SEMINAR

Time	Title	Speaker
9:00 am	Introduction	<i>Prince Sultan University & Saudi Aramco</i>
9:15 am	Volunteerism in Saudi Aramco	<i>Sahar Al-Homoud</i>
9:30 am	IT Disciplines	<i>Taghrid AlKhudairi</i>
<p>While at university, IT students are unaware of the IT career paths that are available and the type of jobs they can work in after graduation. This presentation helps provide them with a high-level overview of the main IT fields/disciplines in the industry to help them make more informed choices for their career. It also provides an overview of Saudi Aramco's IT departments and their functions as one example of a large IT organization's structure and operation.</p>		
10:10 am	Projecting Professionalism	<i>Karima Al-Hamdan</i>
<p>Graduate students embarking on new careers will find that the work environment is very different from the educational one. To better prepare them for their new lives, this presentation highlights the formally agreed professional codes of conduct as well as the informal expectations of business colleagues. It will cover a wide range of topics including attending meetings, dress code, handling criticism and other general work related issues.</p>		
10:50 am	B R E A K	
11:10 am	Mobile Application Development	<i>Jawahir Abubeker</i>
<p>This will provide fundamental knowledge about mobile development and discuss several mobile application development types such as native, web based, and hybrid. It will also highlight that knowledge gained during university differs from that in the workplace. The presentation will discuss the basic milestones involved in becoming a mobile developer. The presenter will share personal experience related to mobile application development as a student and how it differs when one is working at an enterprise level. Moreover, technical aspects that are used in the enterprise level will be highlighted, followed by an example of one of our Mobile Applications.</p>		

11:35 am ***CV and Interview Preparation*** *Dr. Suha AlBehaisi*

Whether you are a recent graduate or a person looking for a better hiring opportunity, the job hunt can be an intimidating process. Luckily, there are a number of steps you can take to prepare yourself for success. Beyond interviewing skills, one of the most important documents to have ready and up-to-date is a good resume. Much more than a simple sheet of paper, it acts as your first impression and can land you the important interview you need to impress a future employer. Through this workshop, you will explore all the practical aspects of seeking out, applying for, and landing the most suitable job for your qualifications.

12:15 pm **P R A Y E R B R E A K**

12:30 pm ***A Career in SAP*** *Dina Al-Amer*

This is for undergraduate students who are majoring in IT and will graduate soon. A person's career will fill a large part of one's life, and because of that, choosing the right career is very important. In this light, senior students and fresh graduates look to people from different working fields to get basic knowledge about what they do to help them understand different career paths. This presentation will explore one possible career related to SAP, which is the world's most used Enterprise Resource Planning (ERP) system, and which is implemented by many of the world's fortune 1000 companies including Saudi Aramco. The presenter will start by explaining the theoretical foundation of ERP systems in general, then will focus on her own SAP experience during her time with Saudi Aramco.

12:50 pm ***Information Protection Essentials*** *Nuha AlNabit*

Every day, our life is becoming more reliant on technology to store our most personal and valuable data, which has opened more opportunities for cybercriminals. This presentation will try to raise the audience's awareness of information security, its importance at both individual and organizational levels, giving examples of protection measurements that Saudi Aramco uses. The presentation will first cover risks associated with cybercrimes, which are social engineering and malware. Then will cover vulnerabilities associated with three technologies, Password, Wireless and Social Media, and ways to protect them. Finally the presentation will emphasize the importance of data backup for organizational and personal purposes.

1:10 pm ***Continuing Your Journey*** *Fatin AlNatour*

As Saudi female University students prepare for graduation, they find themselves ready to embark on the next phase of their lives, and the opportunities they face ahead of them are endless. "Continuing your Journey" offers the Saudi female an overview of the job skills required in the current job market, and life skills needed to balance a career and personal life. The competition is high, but the possibilities are endless, and the journey is exciting!

1:30 pm ***Closing Remarks*** *Prince Sultan University & Saudi Aramco*
